

Week #12 (Full Order)

Remember, the hyperlinks in each email actually work within this pdf. Click each one to be taken to the affiliate page for the product being promoted.

There, you will grab your affiliate link (or request permission to promote).

Once you have your affiliate link, simply replace the links I've included in this pdf with your actual affiliate links. This is how you'll get paid!

Be sure to load these emails into your autoresponder service of choice.

You can set them to go out daily, every other day, or essentially however frequently you'd like.

If you'd prefer to send them out as newsletters (aka broadcasts), that's fine, too... though I really don't see much advantage to doing so. But I never claimed to see all things! ;)

In any case, thanks and enjoy.

I hope you LOVE this week's installment!

-Lee

P.S. Please contact me at lee@listbuildingwithlee.com if any of the products being promoted have been taken off the market. This happens from time to time, and there's really no way for me to monitor such things... so you can be my eyes and ears.

If a product has been taken off the market, I will find a replacement product for you to promote. Thanks.

*****IMPORTANT NOTE FROM LEE*****

Sometimes we start 'believing' that our lists are only gonna jump on products at certain price points, usually under say \$20.

That is not usually the case so you've got to be willing to experiment with different products and prices. Otherwise you could be leaving a bunch of loot on the table and short-changing your subscribers by not sharing some top shelf stuff.

We're in the IM niche, and any product I include in these promo emails is seriously undervalued. Meaning, major bargain for your buyers, whatever the price point.

So in this series you'll notice some price variation, with products under \$20 and over \$30. You won't know until you promote, just what the 'sweet spot' is with your list. And often that ain't price, it's more about what the product itself can do for them.

Thanks and enjoy,

Lee Murray

Two scariest words for info marketers? Product creation. Why do you think that is?

Hogwash, malarkey, and phooey on them for saying so!

Truth is, creating an info product isn't tough. But consistently making award winners, time after time, well there's a bit of an art to that.

Being social pays off!

But what if you're like many that don't like playing that game or lose way too much time getting sucked in to posts and tweets?

I say – automate the whole lot of it!

That's right – automatically build a following and authority on one of the most viral social media sites out there.

Use that to drive traffic to affiliate offers, build your list, you name it!

This plug in will build you automatic engagement in your niche. It finds relevant videos, RSS Feeds and trending Reddit posts then tweets them to your account.

Then goes out and re-tweets, replies and follows on your behalf.

Meaning you sit back and build a following and authority while it does all the work.

And then (best part) you can **use it to drive traffic anywhere you want** – to your own sites, affiliate offers, squeeze pages ...

Free traffic. List building. Authority and commissions. With one Twitter account and one plug in. That's having your cake, and eating it too.
