

Week #15 (Full Order)

Remember, the hyperlinks in each email actually work within this pdf. Click each one to be taken to the affiliate page for the product being promoted.

There, you will grab your affiliate link (or request permission to promote).

Once you have your affiliate link, simply replace the links I've included in this pdf with your actual affiliate links. This is how you'll get paid!

Be sure to load these emails into your autoresponder service of choice.

You can set them to go out daily, every other day, or essentially however frequently you'd like.

If you'd prefer to send them out as newsletters (aka broadcasts), that's fine, too... though I really don't see much advantage to doing so. But I never claimed to see all things! ;)

In any case, thanks and enjoy.

I hope you LOVE this week's installment!

-Lee

P.S. Please contact me at lee@listbuildingwithlee.com if any of the products being promoted have been taken off the market. This happens from time to time, and there's really no way for me to monitor such things... so you can be my eyes and ears.

If a product has been taken off the market, I will find a replacement product for you to promote. Thanks.

*****IMPORTANT NOTE FROM LEE*****

Some of my students and customers have voiced concerns over not getting approved by product vendors to promote offers. Listen, it is up to you to make this happen! Do whatever it takes. PM or Email the sons of bitches... over and over again, if that's what it takes.

You are certainly welcome to drop my name. Let them know that you're a student of mine and that you're using my content to promote their stuff. But while that will certainly win you some points with many vendors, I don't have relationships with all product creators on Earth, contrary to what you may think!

As such, let them know that you're a real person. Don't be rigid in your approach. Be laid back, maybe a bit playful. Use words like "brother, my friend, amigo, etc." Don't suck up too much. Make them perceive you as valuable. If you beg them to let you promote, you're gonna look like a schmuck.

I've never used that word. Ever. That's how serious I am, apparently. ;)

If you have to contact a vendor more than once, do it. If you have to contact them more than twice, do it.

Also, remember that as you continue using these emails, building your list, and making sales...

You will start getting approved by more vendors more quickly.

C'mon, don't be helpless, okay? :D

You got this, baby!

Rock it out.

Thanks and enjoy,

Lee Murray

Promo #3 – “Buy Now – Hooks, Triggers and Buying Trances” by Matt Bacak

1. If It Doesn't Convert, You'll Lose Your Shirt...
2. Without THIS No Amount Of Traffic Will Help
3. Can I Offer Some Really Good Advice?
4. Ready To Outsmart 99% Of The Best Copywriters?
5. Become A Conversion Machine Overnight...

Body:

There are artists and workers out there my friend, and the world needs both. In marketing, the workers drive traffic. And the artists create amazing copy that turns that traffic into sales.

Without offending the workers, driving traffic isn't that tough. But becoming an artist, and crafting converting copy, well that's an entirely different kettle...

Until now becoming an artist was out of reach for anyone not ready to spend thousand of dollars and hours on courses and classes. Which is a shame because the difference between success and failure often comes down to a slightly higher conversion rate.

>> [See How To Instantly Blast Your Conversions Through The Roof!](#)

“Buy Now” presented by Matt Bacak is way more than your typical sales copy textbook. It includes an interview with one of the top rated copywriters on the planet and gives you a rare glimpse inside his brain, and what sets him light years apart from his closest competition.

This information is a lot different from anything you've likely heard on the

subject. But it works – so much so that it is unconditionally guaranteed!

Matt is also including a proven swipe file of some of the most successful buyer hooks in history, plus reports on buying triggers and trances.

Combine these with the interview and you'll be able to instantly apply these methods and start seeing radically improved results as soon as tomorrow.

I'm not exaggerating when I tell you this may well be the most powerful package on copywriting you'll ever come across for the price.

This stuff works in any niche, with any product. Used properly you'll be able to craft offers that outperform 99% of the rest. With creativity you can use these tips to your unfair advantage in email marketing.

But they'll only work if you decide to put them to use.

There are more promises of a “simple 100 bucks per day” offered out there than you can shake a stick at. And most fall well short of the mark, or worse, actually just end up costing you money...

And some of the worst charlatans advertise CPA as the way to make this happen. In theory, cost per action offers *should* be the simplest way to achieve hundred dollar days, but not too many courses seem to bridge the gap between theory and reality.

>> [Click Here To Finally Get Real With CPA!](#)

The icing on the cake is the quick start guide so you can put this beauty to use straight away, and quickly build a lasting, consistent income.

2. Build A Powerhouse Team For Peanuts?
3. STOP! Doing It All Yourself...
4. What's YOUR Time Really Worth?
5. How Far Does 5 Bucks Go? You'd Be Surprised...

Body:

People make all kinds of mistakes running their online ventures. Trust me, I've made more than my fair share...

But one of the biggest that hardly anyone admits to is trying to do all the work themselves! Which ends up causing frustration, burn out and sometimes is enough make people quit.

Fiverr has tried to come to the rescue by offering valuable services for ridiculously low prices. And they've become very good at it. Too good, in fact.

Because trying to find a quality provider on Fiverr these days, one that will deliver what you need and on time, is a bit like trying to find an honest lawyer in a hospital waiting room.

>> [Get The Best Gigs Here In Seconds!](#)

You read that right. Sam's fantastic new software (works on PC and Mac) changes the game when it comes to finding the best providers of whatever you're after on Fiverr.

Doesn't matter if you need book covers, videos, graphics, articles or way more.

Fiverr has the people to do it, and now you can find the best talent with none of the hassle that comes from trying to search the site yourself.

Gig Prospector will allow you to enter your search category, then instantly sort by any combination of speed of delivery, user rating, and number of gigs. You'll really like the "favorites" feature where you can save a preferred vendor to a specific category you set up.

With this software you can build your own outsourcing team in a fraction of the time, and get back to the things that make you the most money in your business. Or, take a nap. Because naps are good too.
